## Seminar

The AO Spine Local Seminar is a 1/2 day compact educational event covering the fundamentals of a particular spine condition; today Degenerative Lumbar Spine.

With the help of cases studies and lectures, the various surgical approaches for treating this condition will be reviewed and evaluated.

The seminar is open to all residents and surgeons in training at the Russian Ilizarov Scientific Center for Restorative Traumatology and Orthopaedic in Kurgan. A live broadcasting will be set-up. Registration is free but mandatory to obtain the log-in link and an AO Spine certificate.

## Learning objectives

1. In-depth understanding of surgical options used for treatment patients with DDD
2. Learn to determine the optimal surgical access for the treatment of patients with DDD
3. Achievement of a high level of efficiency of applied surgical technologies

## Faculty

- Igor V. Basankin, Krasnodar
- Vladimir S. Klimov, Novosibirsk
- Alexander V. Krutko, Moscow
- Yuliy E. Kubetskiy, Novosibirsk
- Sergey O. Ryabykh, Kurgan
- Marchel S. Vetrile, Moscow

## Registration

The seminar is free of charge but registration is mandatory.

# Overview

Date: Friday, February 25, 2022  
Time: 10:00 - 12:50 (Moscow Time MKT)

# Seminar language

English/Russian

# Venue

Russian Ilizarov Scientific Center for Restorative Traumatology and Orthopaedic  
Ul'yanovoy Ulitsa, 6, Kurgan  
Kurgan Oblast, Russia, 640014

# Certificate

After the seminar, participants will receive via email an AO Spine certificate.

# Agenda

10:00-10:10	Welcome and AO Spine introduction	Alexey V. Evsyukov Sergey O. Ryabykh
10:10-10:30	<b>Session 1: The main surgical approaches (technologies) used for the surgical treatment of DDD of the lumbar spine</b>	
	Lecture	Vladimir S. Klimov
	Case Discussion	
	Clinical case review+conclusion	
10:30-10:50	<b>Session 2: Hidden possibilities of posterior access</b>	Alexander V. Krutko
	Lecture	
	Case Discussion	
	Clinical case review+conclusion	
10:50-11:10	<b>Session 3: Nuances and potential of ventral and lateral approaches</b>	Yuliy E. Kubetskiy
	Lecture	
	Case Discussion	
	Clinical case review+conclusion	
11:10-11:30	Break	
11:30-11:50	<b>Session 4: Rare complications of surgical treatment of degenerative lumbar spine diseases</b>	Alexey V. Evsyukov
	Lecture	
	Case Discussion	
	Clinical case review+conclusion	
11:50-12:10	<b>Session 5: Advantages and disadvantages of posterior approaches</b>	Marchel S. Vetrile
	Lecture	
	Case Discussion	
	Clinical case review+conclusion	
12:10-12:30	<b>Session 6: Advantages and disadvantages of lateral/ventral approaches</b>	Igor V. Basankin
	Lecture	
	Case Discussion	
	Clinical case review+conclusion	
12:30-12:45	Local cases	
12:45-12:50	Closing remark	Sergey O. Ryabykh Alexey V. Evsyukov
